Execujet

LUXURY AT DUBAI INTERNATIONAL AIRPORT

Execujet's state-of-the-art FBO at Dubai International Airport has been entirely redesigned. Taking design inspiration from both the East and the West, the décor sets a relaxed tone for the refreshed areas. The new design is set across all eight Execujet VIP passenger lounges, plus there's the addition of a new Majlis Lounger, a large

crew lounge and games room.

Unlike other handling facilities in Dubai, Execujet FBOs at both Dubai International Airport and Dubai Al Maktoum International Airport are completely private. This ensures total privacy with a tailored service from Execujet's experienced team.
